

Are you AT RISK for Melanoma?

Answer each question by checking the appropriate circle

1. What type of skin do you have?
 - o Skin-type I: Very fair skin, blond or red hair, light eyes (blue or green), never tan and always sunburn after sun exposure. *HIGHER RISK*
 - o Skin-type II: Fair skin, blond or light brown hair, light eyes (blue or green), and usually sunburn
 - o Skin-type III: Dark skin, brown hair, light to medium eye color
 - o Skin-type IV: Olive skin, dark brown hair, brown eyes
 - o Skin-type V: Brown skin, black hair, black eyes
 - o Skin-type VI: Black skin, black hair, black eyes
2. Do you have freckles? o Yes / o No
3. How many moles do you approximately have on both arms?
 - o More than 20 / o Fewer than 20
4. Have you had one or more episodes of severe blistering sunburn during childhood or teenage years?
 - o Yes / o No
5. Did you live more than 1 year in a country where sunshine is high (Africa, French West Indies, Southern U.S., Australia)?
 - o Yes / o No
6. Have you ever been diagnosed with melanoma in the past?
 - o Yes / o No
7. Have any of your first-degree relatives (parents, children, brothers or sisters) ever had melanoma?
 - o Yes / o No

The greater the number of "YES" answers, the HIGHER the risk!
